6. Any person may access and inspect, at no charge, any case record or information contained in those records, regardless of means of access and record format, unless access is restricted by statute, court rule, or a court order entered pursuant to MCR 8.119(I), and may make photographic copies in accordance with MCR 8.115(C)(5)(a) or obtain copies subject to the following regulations established in accordance with MCR 8.119(J).
 - a) General
 - i) All requests to access and inspect case records identified in this administrative order and/or for copies of those records must be made in writing to the clerk's office. All requests for court records and/or copies must be made on a "record/copy request form" and must specify a complete case number or party names, except as provided under item (b)(iv).
 - ii) Persons who do not have a complete case number or party names may review available case indexes to identify and select specific cases for inspection.
 - iii) Case records shall be reviewed at the public counter unless, in the discretion of court supervisory personnel, approval is granted to review records in the clerk's office based on available space, the type and number of records to be reviewed, and the length of time necessary to review them.
 - iv) Ensuring the right of immediate access to and public inspection of court records shall be a top priority, but may be limited by the availability of court staff to supervise the inspection.
 - b) Access
 - i) Except for online public case indexes and registers of case action, requests for access and inspection to no more than 5 specific case files will be accommodated within 1 hour unless the files are not in the active file area. Requests for specific case records in storage will be accommodated within 3 business days.

It will be the responsibility of those persons requesting access to make prior, acceptable arrangements with the court.

c) Copies

amount of time dependent upon the availability of sufficient public data within the body of case records (including related databases), and the ease with which those records can be identified and compiled.

- ii) Costs to provide a new record may not exceed the actual cost of labor and supplies and the actual use of the system to develop, generate, and validate the accuracy of the record.
